

Summary of suggested changes for the Professional Pilot framework.

General:

1. The only change to this framework was to create a Microsoft Word file to enable hyperlinks to work when selected.

Specific:

1. A list of tools and equipment has been added as a reference.
2. The “employability skills” outcome has been renamed “workforce/workplace readiness skills” and the associated performance standards have been increased to cover all aspects of working with and for others.
3. A section has been added at the end of the performance standards that provides website references and distance learning courses offered for this program.
